

# CALL FOR PAPERS

ENGINEERING AND UROLOGY SOCIETY

<http://engineering-urology.org>

26<sup>th</sup> ANNUAL MEETING

Saturday, May 14 2011, Washington, DC

The society promotes the development and application of new technology in urology through collaborative efforts teamed by engineers, physicists, and urologists. Innovative solutions for clinical problems are sought through this triple team effort. Papers are solicited with regard to this aim and the topics it encompasses, yet the subject is not necessarily limited to urological themes. The discussion of engineering principles (physics, mechanical, electrical, computer science) with potential urological applications is encouraged as well. Papers are also solicited to report new developments with Medical Robotics, Single Port Laparoscopy, Natural Orifice Translumenal Endoscopic Surgery, and other new research related to the scope of the society.

The website will be open for submitting the abstracts between March 1 and March 30, 2011. The **deadline** for submitting the abstracts is **Wednesday, March 30** at midnight Pacific time. If you are a member of the society or author/coauthor an abstract to this meeting you will be invited to participate in the online-review process. This will be performed between April 1<sup>st</sup> and April 15. The results will be announced shortly thereafter.

Based on the results of the online review, the Society will select the Best Paper and Best Reviewer Awards, which will be presented at the meeting.

Please follow the instructions below to format and submit your abstract:

- Please use this *Microsoft Word (.doc)* file as a template.
- Create your manuscript in Microsoft Word, either .doc or .docx formats. Do not use spaces in the name of the file.
- Use Letter Size page format, Times New Roman style with text size 12.
- Do not create new sections of the document.
- Include the title, authors, and affiliations, as shown in the template.
- Figures should be included in the doc file. Use 300 dpi resolution. Use a drawing canvas to include the figures, its markings, and caption as shown in the template.
- The maximum length of the document, including the figures, is one page.
- Between 3/1 and 3/28 submit your abstract at: <http://engineering-urology.org/cgi-bin/submit.cgi>
- List all authors and their email addresses in the website forms. Email addresses are required for the authors, do not copy the same address for all.

The American Urological Association designates this educational activity for a maximum of 8 AMA PRA Category 1 Credits™.
