

ENGINEERING & UROLOGY SOCIETY

Membership

The Engineering and Urology Society promotes the development and application of new technology in urology through collaborative efforts teamed by engineers, physicists, and urologists.

ORGANIZATION:

1. The [EUS](#) is a subsection of the [Endourological Society](#).
2. Membership in the EUS and Endourological Society is common, under the same fee /benefit structure.
3. EUS and Endourological Society members have the same benefits.
4. Annual membership fees are the same for all members (fees listed in the application form).
5. The EUS accepts [online](#) membership applications.

ANNUAL MEETING:

1. The EUS annual meeting is held at the beginning of the annual [AUA](#) meeting under the auspices of the Endourological Society.
2. The program content is primarily based on engineering and technology topics applied to Urology. The intent is to increase the interest and participation of clinicians in technology development and engineers in urological applications.

JOURNAL:

1. Membership includes a free subscription to the [Endourology Journal](#) and free access to the electronic version of the journal.
2. The Endourology Journal publishes EUS contributions and proceedings in its New Technology Section.

MEMBER BENEFITS:

1. Complimentary registration at the annual meeting of the society.
2. Subscription to the Journal of Endourology, including online access.
3. Certificate of membership in a printable electronic format. Additional fees required for printed and framed certificates.
4. Access to the interactive EUS forum through the member website.
5. Access to post and retrieve job availabilities on the member website.
6. Access to post messages on the e-mail distribution list of the society.
